

Bangladesh

Country profile

2016
December

www.devinit.org/p20i

This country profile is produced by Development Initiatives to support the National Dialogue on the 2030 Agenda for Sustainable Development. As one of the founding partners of the Leave No One Behind partnership, established in July 2015, our role is to provide data at a national level to help track progress against the Sustainable Development Goals (SDGs) so we can make sure that no one is left behind.

Poverty profile

- The national poverty line in Bangladesh is BDTK 1545.96 per month. According to the most recently available data (2010), 31.5% of the population live below this line, of which 77.7% live in rural areas.
- In Bangladesh extreme poverty, defined as those living on less than PPP\$1.90 a day, has been decreasing since 1999, falling from 35.78% in 1999 to 11.7% in 2013.
- In 2010, the richest 20% of people in Bangladesh owned 41.5% of national income, in contrast to the 8.9% shared by the poorest 20%.

Economic profile

- In 2015, Bangladesh's GDP per capita was PPP\$3,136.56 compared with a regional average of PPP\$5,321.44 for South Asia.
- The Gini index measures the income distribution of a country's residents, where 0 means everyone earns the same and 100 means that one person earns everything. In Bangladesh in 2010 the Gini index was 32.1, down from 33.41 in 2000, reflecting an increasingly even distribution of income in Bangladesh.
- Out of 188 countries, Bangladesh is ranked 142 on the United Nations Development Programme (UNDP)'s Human Development Index (HDI) (2015), with a score of 0.570.

Note: Economic, health and education data in this profile are Development Initiatives' calculations based on the World Bank's World Development Indicators and the UNDP's HDI; please refer to these sources for full definition of public spending. Poverty data are Development Initiatives' calculations based on the World Bank's PovcalNet.

Achieving SDGs

If global efforts to end poverty and achieve the SDGs are to be reached, it is essential that no one is left behind; the SDGs will not be considered met unless they are met for everyone.

However, current data is not good enough to tell us exactly who is being left behind, where they live and why. To better target resources and track their progress we need to better understand who they are. To achieve this we need more and better data disaggregated by at least geography, gender, age and disability.

A new project from Development Initiatives, the P20 Initiative, will be doing just this. The P20 Initiative will provide data on whether things are improving for the poorest 20% of people globally. It will do this by gathering and using existing data and promoting better disaggregation of data on people so we can ensure that those furthest behind are reached first and included in progress so the SDGs can be achieved for all.

The Leave No One Behind partnership seeks to drive global momentum to make sure that happens. Made up of three international non-profit organisations (CIVICUS, Development Initiatives, and Project Everyone) with the support of the United Kingdom's Department for International Development we have come together as founding partners to catalyse a global movement to ensure that the pledge to Leave No One Behind turns from words into reality.

For more information on the Leave No One Behind partnership please email info@leavenoonebehind.global or visit www.leavenoonebehind.global

SUPPORTED BY

Development Initiatives (DI) is an independent international development organisation working on the use of data to drive poverty eradication and sustainable development.
