

SPANISH EXPERIENCE ON THE VNR PROCESS

Resilient Societies, Resilient People:
**inclusion of civil society in the 2030
Agenda**

July 14th New York

FUTURO EN COMÚN

What is the starting point?: the need of a CHANGE

Cross-sectorial platform of CSO created in June 2015

9 SECTORS:
environment,
cooperation for
development, defense
of human rights, rights
of women and children,
immigrants, social
action, unions.

50 members
(organizations and
platforms).

Participation in the
European **SDG Watch**
Europe

Building a political space of change

Robust Governance Structures and leadership

Monitoring and Evaluation Framework engaging all the stake-holders

Sustainable Development Strategy focused in drivers of transformation

Localizing SDGs

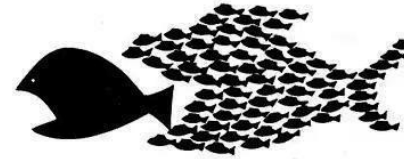

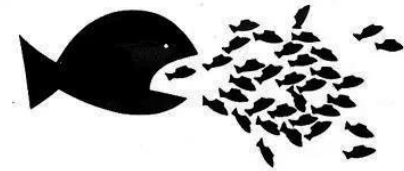

The essential role of the Civil Society

ASSOCIATED PRESS

Our VNR experience

- It remain a long way to have a robust structured consultation process.
- VNR was useful for moving forward and set up the basis of the implementation
- The political space already is created (president leadership, coordination structures, etc.) but it is still weak and compete with other agendas.
- A present arrives in the last minute
- What is next?

Spotlight report from civil society

- Agenda of opportunities of change
- Where is Spain? A balance
- The need of change in four political areas:
 - Don't leave no one behind
 - We are the planet that we live
 - An inclusive society without any violence in an inclusive democracy
 - Our role in the world
- Policy recommendations

Informe desde la Sociedad Civil
Año 2018

Una Agenda 2030 transformadora para las personas y el planeta

Propuestas para la acción política
